HEAVY DUTY RADIO REMOTE D-50 TRACK DRILL

D-50 Specifications

Drilling Torque: 4316-9012 ft. lbs.
Drilling Clearance with Mast Up: 20' 6"
Optional Low Overhead Drilling
Clearance: 12' 2-1/2"
Front Winch: 20,000 lbs.
Width/Length: 7' 7" by 15' 6-3/4"
Ground Pressure: 3.2 to 3.8 psi

The track carrier uses the latest in hydrostatic drive technology resulting in a carrier with low maintenance and high reliability. The heavy duty tracks are 24-inch wide heavily reinforced rubber. The ground clearance is 16 inches throughout the carrier for easy traveling through mud, snow, sand, steep slopes and wooded areas. This unit uses two-speed motors which enable the rig to negotiate a 75% grade (with the 115HP engine) in low range and travel at 5.9 MPH in high range.
